

# Software developer

At UXV Technologies, we value Integrity, Communication, Innovation, and Quality. These core values drive everything we do and define how we work together to create cutting-edge solutions. Now, we're looking for an ambitious and talented software developer to join our progressive and technically strong team.

## What You'll Be Doing

As a Software Developer, you'll work on exciting and impactful projects in areas such as:

- QT, C/C++, Python
- Motor Control
- Embedded Systems and Software, RTOS
- OpenCV/Image Processing (CUDA Accelerated and OpenGL)
- Linux-based Development

## Your Profile

We're looking for someone who is:

- *Ambitious and Dedicated* – You're ready to invest time in your personal growth and contribute to our success.
- *Curious and a Fast Learner* – You thrive on understanding new challenges and technologies.
- *Responsible and Independent* – You take ownership of your work while maintaining high standards.

## Your Advantage

It's a plus if you have experience in one or more of the following areas:

- QT, C/C++, Python
- Motor Control
- Embedded Systems/Software, RTOS
- OpenCV/Image Processing (CUDA Accelerated and OpenGL)
- Linux

## Why UXV Technologies?

At UXV Technologies, you'll be part of a company where innovation is at the core, teamwork is celebrated, and quality is a non-negotiable standard. Here, your skills and ideas will directly shape the solutions of tomorrow.

## Ready to Join Us?

Applications are reviewed on an ongoing basis. However, please note we do amend or withdraw our jobs and reserve the right to do so at any time, including prior to any advertised closing date. So, if you're interested in this role we encourage you to apply as soon as possible.

We look forward to receiving your resume and a short application. Don't wait too long – we are interviewing candidates on an ongoing basis.
